DSA-300: Pattern-wise Question Sheet

300 curated LeetCode problems grouped by pattern, built for a 2-month plan at 2 hours/day. Every pattern here is one that comes up repeatedly in big-tech interviews.

Curated by @monkeytalks.json (https://www.instagram.com/monkeytalks.json)

How to use this plan

Days 1-56: about 5-6 problems/day (roughly 20 min each; read the editorial after 20-25 min of honest effort, then re-solve from scratch the next day). Days 57-60: revision of problems you could not solve unaided + 2 mock interviews. Tick the box in the first column as you finish a problem.
